

Hey Dee, you just received a parcel from ClipKart. What had you ordered?

It's a hand sanitizer, Dey. The 1st line of defence against Coronavirus.

Oh! How is the situation now?

Coronavirus has affected **787,010** people around the world. It has caused **37,829** deaths.

The **United States**, **Italy** and **Spain** have the highest no. of cases, far more than **China**, where the disease originated.

Now let's look at a breakdown of death rates and recovery rates.

92.62% of China's patients have recovered, while **4%** have died

Among countries with over a 1,000 cases, Italy has the highest death rate (**11.75%**). **Spain (8.8%), and France (6.8%)** have the highest death rates

The silver lining is that on average, **21% of people** have recovered and **3/4th** of the patients are under observation
