

Gramener

A data visualization and analytics company

We make data consumption intuitive and actionable.

Gramener transforms your data into concise dashboards that make your business problem & solution visually obvious. We help you find insights quickly, based on cognitive research, and our visualisations guide you towards actionable decisions.

What is my revenue breakup by product, channel & market?

How was the UPA Government's first term different from their second?

How long should you hold a stock after buying to beat the market?

Which parties have taken coast line? explore this at ibn.gramener.com website

How is paddy cultivated in irrigated areas?

Sales & profitability of every company in India

How do I plan pickup routes to maximise ROI?

Which branches have met targets by product?
